EDUCATION

BTech in Computer Science With Information Technology, SRM Institute Of Science & Technology CGPA - 9	2026 Chennai, India
Class 10th, Krishna Public School	2020 Bhilai, India
Class 12th, Krishna Public School	2022 Bhilai, India

PROFESSIONAL EXPERIENCE

AWS Cloud Virtual Internship, AICTE 🔗	January 2024 – March 2024
Google Android Developer Virtual Internship, AICTE 🔗	April 2024 – June 2024
Palo Alto CyberSecurity Virtual Internship, AICTE 🔗	July 2024 – September 2024
Apple & Infosys iOS Student Developer, SRM University 🔗	August 2024 – present
- Collaborating with industry experts from Apple and Infosys to enhance development skills and adhere to best practices in iOS app development. - Leading the design and development of NoteShare, an innovative iOS application for students to seamlessly share, organize, and access handwritten notes with effortless AI-driven features. - Program includes a one-month internship at Infosys to further refine software development and collaboration skills.	

PROJECTS

NoteShare 🔗
- Developing Noteshare, an iOS application enabling students to upload, share, organize, and access handwritten notes seamlessly, fostering collaboration and simplifying study workflows. - Leading end-to-end development in Swift, including UI/UX design, feature implementation, testing, and optimization for a user-centric, efficient app experience.
Deepfake Detection System 🔗
- Developed a machine learning model to detect deepfake videos by identifying subtle inconsistencies and manipulations. - Addressed risks like misinformation, identity theft, and privacy breaches through an efficient detection system.
Price Comparision Website 🔗
- Created a website to scrape real-time data from multiple websites for current item/device prices. - Used Python's BeautifulSoup and Requests libraries for data scraping and MySQL to store links and price class names.

CERTIFICATES

- Oracle Cloud Infrastructure 2024 Certified Foundations Associate [🔗](#)
- Nptel Programming In Java [🔗](#)
- Nptel Computer Architecture [🔗](#)
- Google For Education Certification: Android Development [🔗](#)
- Alteryx Foundational Micro Credential [🔗](#)

SKILLS

Programming Language

Python, C++, Swift, Java, Mysql, Html/Css

Tools/Frameworks

AWS Cloud, FireBase, SwiftUI, UIKit, Pytorch, Tensorflow, Keras, NumPy

ACHIVEMENTS

Grand Finalist at Navonmesh '24 National Level Hackathon [🔗](#)

- Selected among 29 teams from 1550+ national entries atSSIPMT Raipur. Developed a deepfake video detection system leveraging machine learning, Python, and REST APIs.
- Gained valuable insights from esteemed judges, including **Nitin Sharma (India Head, Qualcomm)** and **Hridayesh Singhal (CEO, Hyderabad)**, highlighting Qualcomm's industry collaboration.
